Re: Letter of Intent for Variation at 412-15th Street (Lot 9, Block 15, Plan 2 BLTO)

Con-Cor Homes c/o Steve McMillan on behalf of the owner Pro-Fit Renovations and Property Management Ltd. is applying for a variance to the City of Brandon Zoning By-law 7124 in order to increase the maximum number of dwelling units from two (2) to four (4) and reduce the number of required parking spaces from six (6) to (5) in the Residential Low Density Multiple Family (RLD) zone.

The property is designated "Residential" as per *Map 1: Urban Land Use* in the Brandon & Area Planning District (BAPD) Development Plan (DP) 2013 [By-law 95/01/12]. Applying for a variance to increase the density of this property from 2 units to 4 units would meet specific residential policies in the BAPD DP 2013; specifically, 2.2.2 Housing Mix, 2.2.4 Density, and most importantly 2.2.3 Housing Affordability.

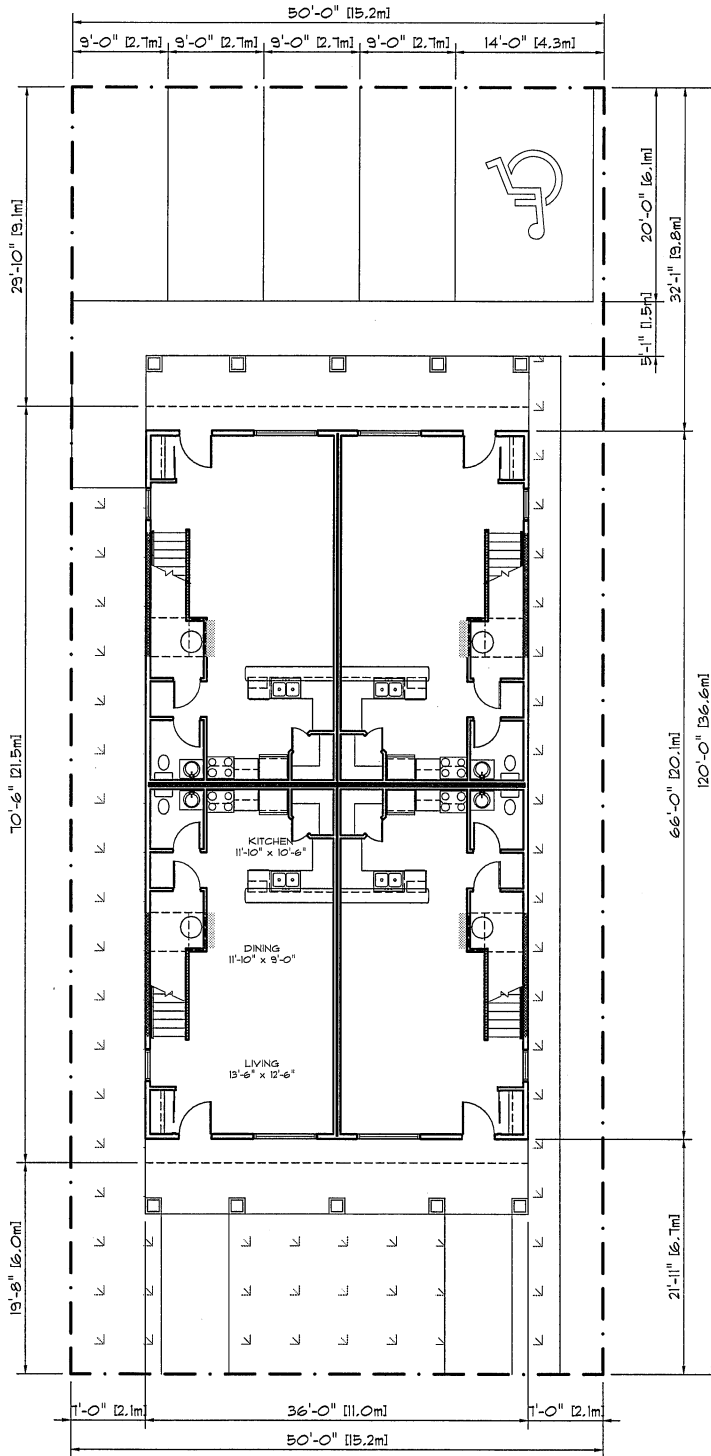

Con-Cor Homes is seeking approval to build a fourplex to replace the home previously on the property. This will create four new dwelling units only 2 blocks away from Brandon University; which makes this a great location for student housing. The building will conform to components of the new Urban & Landscape Design Standards, specifically Part 4 Building Design and Part 5 Landscape Design, which include defined front entrances, covered porches, using design elements from surrounding buildings and landscaping along the buildings exposed foundation. Con-Cor Homes will work with the Planning Department in order to make sure the exterior of the building maintains some elements of the area; but at the same time modernize the building.

The required parking will be accommodated off the rear lane. The parking will include four regular sized stalls and one accessible stall. This will allow one parking space per unit on the property with any additional parking towards the street. With its close proximity to Brandon University this would be an ideal location for students; along with its close proximity to City parks, BU campus recreation facilities and a food source in Hurls Food Mart all within short walking distance; this could potentially remove the need of having a vehicle.

There are no Secondary Plans or Overlay Zones impacting the property; and no environmental concerns with the property.
