Variance to Zoning By-law No. 7124

Name of Property Owner: Don Thomson
 Name of Applicant: Don Thomson
 Civic Address of Property: 25-21st Brandon, MB R7B1W2
 Legal Description of Property: Lot 11, 12, 13 Block 11, Plan 15 BLTO IN E 1/2 22-10-19- WPM

References:

BAPD Development Plan By-law No. 95/01/12
 Applicable Secondary Plan By-law
 City of Brandon Zoning By-law No. 7124

Prior to submitting a formal application, the Planning & Building Safety Department strongly recommends that all applicants meet with a Community Planner to complete a pre-application review

Variance Request(s): Variance request to Bylaw No. 7124
 We are requesting a variance to change the height of the garage from Bylaw's "1351" to "~~20' 3 3/4~~"^{4m}. Present House dwelling height is calculated at 15' 1 1/2". 14' 10 7/16" (4.53m)
 The increased height is required to build add. hand storage space.
 As the applicant, I confirm and verify to the City that the information provided in this application is true and complete, and I undertake to observe and perform all provisions of The Planning Act, the Development Plan, the Zoning By-law, and the provisions of other relevant laws, by-laws or agreements.

RE: Variance to Zoning By-law No. 7124 for a residence at 25 – 21st Street, Brandon, MB.
Lot 11, 12, 13 Block 11, Plan 15 BLTO IN E 1/2 22-10-19 WPM.

Dear Planning and Building Safety Department,

This letter is provided in order to request and substantiate the above noted matter. The property is the primary residence of Don and Jennifer Thomson of which we have owned since Sept 1st, 1992. The Variance being requested relates to the height requirement for the construction of an unattached garage. The planned structure meets all of the other planning parameters set forth within the City's Zoning Bylaw No. 7124, with the exception of the aforementioned height requirement.

The proposed garage will be located in the south east corner of the property (25-21st Street) and will be constructed with a hard-surfaced driveway. The attached site plan with our variance application includes:

1. A setback from the side yard to the south and the detached garage is a minimum distance of 0.3m clear of all projections;
2. A setback from the rear yard to the east and the detached garage is a minimum distance of 0.6m from the wall to the site line;
3. The attached garage on the north side of the dwelling unit will remain as a useable space. The approaching driveway for this structure will be removed with the area landscaped in its place.

Unfortunately, the proposed plan will not meet the current conditions of Zoning Bylaw 7124:

"Height of the detached garage does not exceed 4.0m nor the height of the principle dwelling (whichever is the shorter)".

Through this Variance application, we are requesting to change the height of the structure from the above noted Zoning By-law height of 13ft. (4.0m) to 15' -6" or 4.72m.

We are requesting this variance of the City's Zoning By-law No. 7124 to allow for the creation of a viable storage space that is needed for our family and property. Our home was built in the 1950's with very little space ever planned at that time for additional storage space. I will confirm at this time that the proposed space is for 'storage only' and not the future creation of an additional living space.

As you will see from the enclosed site plan diagrams, the garage would blend extremely well into the neighboring buildings. The goal has been to build a structure that fits with the current building styles that are in our neighborhood. The additional height would still blend very well with existing buildings. We will be re-plant deciduous trees that will be similar in height to the trees that had to be removed for this project to occur. The garage would be located 20ft from the house, thus fire spread would not be an issue as well as it is accessible by two lanes for emergency vehicles.

We look forward to working with the City of Brandon and its Planning and Building Safety Department in order to achieve this variance request.

Respectfully submitted;

Don Thomson
