

Growing Our Existing Neighbourhoods Together

The City of Brandon is growing, the character in our existing neighbourhoods is changing as a result. To address these changes, new standards are being proposed by the City to ensure positive impacts on our neighbourhoods. This public event is the fourth and the last of a series of open houses regarding residential infill (redevelopment and development within existing neighborhoods). This event includes a brief presentation on the proposed development standards that incorporate comments and suggestions from the three previous open houses, online survey and best practices from elsewhere.

Please mark your calendars and join us. We look forward to seeing you there.
