

HOW TO LIVE WITH RADON GAS

You are invited to attend the Residential Radon Gas Informational Session

Hosted by the Planning & Building Safety Department

**WHEN: Wednesday, September 30th, 2015
from 5:00 pm to 6:30 pm**

**at the
Brandon Design Studio
638 Princess Avenue**

(Please use the Cultural Resource Centre entrance at the east side of the A.R. McDiarmid Civic Complex. Additional visitors parking is available at the parking lot at the corner of Princess Avenue and 6th Street).

Radon Gas is a naturally occurring gas that cannot be detected by smell, taste or sight, and it is found in different concentrations through the Province. If you are concerned about the radon gas level in your home, there are ways to detect and mitigate the concerns. Please come and join us at this informational and interactive session and learn more about the methods of testing and mitigating the level of radon gas.

Visit our website: www.brandon.ca/brandon-design-studio to register. Please provide us with a number of attendees if you are attending as a group. Registration is encouraged but not required.

For further information, please contact Dave Lourenco at d.lourenco@brandon.ca or 204-729-2196.
