

DEVELOPMENT CHARGES

Capital Budget Discussion

Development charges are an important tool to fund infrastructure required to service new growth. Development Services staff are moving forward with the Development Charges by-law with the intention for the charges to be implemented early in 2019 following Council approval.

Please join Development Services staff for a discussion on the timing of infrastructure identified to service growth in the capital budget. Industry feedback is key to ensure the City's construction timelines align with market demands and the speed of development.
