

# ORGANIC RECYCLING WORKS!

using the **Kitchen Collector**

## AESTHETICS

Designed by award-winning home product designer Myles Keller, the Kitchen Collector's soft, smooth lines and contemporary styling are a welcome addition to any countertop.

## CLEANING

- Rounded corners allow easy, thorough cleaning
- Fits comfortably under faucets
- Tested to withstand 20 continuous dishwasher cycles

## WHAT GOES INTO THE KITCHEN COLLECTOR

Fruits and vegetables, table scraps, breads, rice, pasta, coffee grounds, filters, tea bags, eggshells, etc.

Paper Fibres, paper egg cartons, fast food drink trays, soiled paper towels, tissues and serviettes.

## SECURITY

- 2 gallon (7.5 litre) size promotes bi-/tri-weekly emptying
- Snap-latch and 360 degree double-rim closure lid is an effective barrier to flies and odors

## WHAT STAYS OUT

Meats, bones, fish, dairy products, fat, plastics, metals, wood, tin and other non-compostable materials.

## DEPOT LOCATIONS

- Full containers can be taken to one of these six convenient depot locations: East View Landfill site for composting, Rideau Park, Sportsplex, 34th and Victoria, Westridge Community Center or 1st and Richmond
- Materials may also be added to your backyard composter
