# **Brandon Fire and Emergency Services**

# **Tire Storage Regulation – Schedule "P23"**

The following Regulation is in accordance with the City of Brandon's Fire Prevention By-Law #7200

## **Indoor Tire Storage**

## **Tire Pile Dimension**

- □ The aggregate storage area of tires in a building shall not be greater than 100 m<sup>2</sup> (120 yds<sup>2</sup>).
- $\Box$  The height of a single pile shall not exceed 3 m (10 ft.).

#### **Fire Access Aisles**

Adequate access for fire fighting purposes shall be provided and maintained to all portions of the premises.

- □ At least one main aisle shall extend the length of the building with a minimum width of 2.4 m (8 ft).
- □ Aisles separating single piles of tires shall be at least 2.4 m wide (8 ft).
- □ Access aisles not less than 1 m (3 ft) wide shall be provided to exits, fire protection equipment.

## **Sprinkler Protection**

Buildings shall be sprinklered in conformance with NFPA 13 "Installation of Sprinkler Systems" whenever:

□ The aggregate area of single storage piles of tires in the building exceeds 500 m<sup>2</sup> (597 yd<sup>2</sup>)

## **Portable Fire Extinguishers**

Portable extinguishers shall be provided in tire storage locations so that there is:

- □ One extinguisher with a 2A10BC or higher rating for every 250 m<sup>2</sup> (298 yd<sup>2</sup>) of floor area.
- □ Fire extinguisher mounted in floor area shall have visual indicators mounted to indicate their locations.

## **Outdoor Tire Storage**

## Vendor Sites (ie. repair garages, etc.)

- □ There shall be a minimum of 3.65m (12 ft) clearance to buildings or stored products.
- □ Vendor sites may store tires in a pile with a base area not exceeding  $5m^2$  (54 ft<sup>2</sup>) and a height of not more than 2 m (6.5 ft).
- **□** There are no other requirements for piles limited to this size.

□ If a vendor site exceeds this storage amount, the requirements as outlined for piles up to  $300 \text{ m}^3$  shall apply.

#### Single storage pile up to and not exceeding 300 m<sup>3</sup>

- $\square$  Pile base shall not exceed 100 m<sup>2</sup> (120 yd<sup>2</sup>)
- $\Box$  Pile height shall not exceed 3 m (10 ft)
- $\Box$  There shall be a minimum of 3.65m (12 ft) clearance to property lines.
- □ There shall be a minimum of 3.65m (12 ft) clearance to buildings or stored products.
- $\Box$  There shall be a minimum of 7.62 m (25 ft) clearance to forested or bush areas.
- $\Box$  There shall be a minimum of 6 m (20 ft) clearance to uncontrolled grass or weeds.
- There shall be no storage in a 10 m (33 ft) buffer area immediately beneath power lines. This can be established by centering the buffer on the power line and taking 5 m (16 ft) left or right of the line.
- □ There shall be no ignition sources (ie. torches or welding) within 15 m (50 ft) of the pile.
- $\Box$  There shall be no smoking within 6 m (20 ft) of the pile.
- Other storage exceeding the quantity addressed herein shall comply with the Provincial requirements for such.

#### Storage where bulk volume exceeds 300m<sup>3</sup> = Storage Yards

□ Refer to Fire Protection Regulation: "Outdoor Tire Storage Yards"

#### **Scrap Tire Storage**

- □ There shall be a maximum of 50 scrap tires on the property.
- □ There shall be a minimum of 3.65m (12 ft) clearance to property lines.
- □ There shall be a minimum of 3.65m (12 ft) clearance to buildings or stored products.
- $\Box$  There shall be a minimum of 7.62 m (25 ft) clearance to forested or bush areas.
- $\Box$  There shall be a minimum of 6 m (20 ft) clearance to uncontrolled grass or weeds.
