ENQUIRIES:

(213) BUSINESS GROWTH IN THE CITY OF BRANDON

Councillor Frangi noted that as the population of the City of Brandon continued to grow, so did the need for major businesses such as Costco. He enquired what had been and was being done to encourage large retailers such as Costco to come to Brandon.

At the request of His Worship the Mayor, the City Manager responded that the Economic Development Office along with several local commercial property owners/developers had reached out numerous times to Costco and invited them to consider the City of Brandon in their expansion plans. He confirmed that Costco was very familiar with the Brandon market place and continued to monitor same for consideration as a new location when investment decisions were made.

(214) BLIND CORNER IN BACK LANE ON EAST SIDE OF MCDIARMID DRIVE ALLIANCE CHURCH

Councillor Cameron advised that a blind corner in the back lane on the east side of McDiarmid Drive Alliance Church was dangerous for cyclists entering the lane from the bike path. He enquired if warning signage or staggered fencing to slow bikes down as they entered the lane could be considered for this location.

At the request of His Worship the Mayor, the City Manager responded that this area would be reviewed by the Engineering Department with a response to be provided as soon as possible

(215) GOPHER CONTROL IN CITY PARKS

Councillor Luebke referred to the increased number of gophers in public greenspaces and on residents' properties this summer and enquired if any pest control measures were planned for same.

At the request of His Worship the Mayor, the City Manager responded that the rodent control at a few sports facilities and buildings was contracted out by the Parks Department; however, a local pest control service had provided service at city greenspaces during huge infestations in the past. It was noted that the gopher population thrived on the dry conditions and at least a 20% increase in same was expected this summer.

The City Manager advised that the Brandon Police Service had received numerous calls recently with respect to this issue and Animal Control Officers concentrated on eradication in certain areas when it was safe to do so. Mr. Bowles encouraged residents to work with local pest control providers for eradication of rodents on private property.

Further to this issue, Councillor Fawcett advised that there was a large infestation of rodents in the area of Hanbury Hill and reminded residents not to leave food out for the wildlife in the area as these squirrels or gophers also fed off that same food.

Councillor Chaboyer also cautioned that the poison used to eradicate rodents was toxic to small pets and encouraged everyone to keep that in mind when such products were used in public greenspaces and parks.
