***City of Brandon Planning and Building Safety Department***

To: whom it may concern:

I am Brian Dornn and I would like to apply for a variance at 563 3<sup>rd</sup> Street in Brandon Mb. I am asking for a variance

- To reduce the required north side yard to 1.2 M
- To reduce the Railway Protection Overlay Zone to 20M (from 30M)

I am proposing to build a single storey four unit building on this property. This would tend to conform with the general nature of the surroundings as there are quite a number of similar single storey multi unit buildings on this street.

I don't believe that allowing these variances will have a negative affect on the area. The property is over 100m away from the train tracks and on the other side of the street. By reducing my side yard on the north side to 4', I am not asking for anything different than what is required in other zones.

I am asking for the minimum modification to the zoning by law by only pushing the Railway Protection Overlay Zone to the edge of my property

The area that my property is located in is zoned residential and I am conforming to all other requirements in the RMD zone.

Regards

Brian Dornn
