Variance Request(s):

A freestanding identification sign, located in the northeast corner of the property, was placed with insufficient setbacks from both the north and east site lines when it was installed in 2009. We (the new tenants) request a variance to allow the sign to remain as is. The current code states that the sign must be at least 1.5m from all property lines. The existing sign is 0.11m too close to the north site line and 1.0m too close to the east site line.

As the applicant, I confirm and verify to the City that the information provided in this application is true and complete, and I undertake to observe and perform all provisions of The Planning Act, the Development Plan, the Zoning By-law, and the provisions of other relevant laws, by-laws or agreements.

Variance Request: Letter of Intent

There currently exists a Nissan manufacturer pylon sign located on the south east corner of the property. When it was constructed in 2009, the setbacks from the property lines were not adhered to in error. The south portion of the sign is 0.11 meters too close to the property line and the east portion is 1.0 meters too close to the property line. We are formally requesting a variance to the setback bylaw for this property to solve this issue.

The sign currently does not impact any parking areas or access/egress related to the site. There is no impact to any surrounding properties or to the health or general welfare of people in the area. This is the minimum modification to the zoning by-law that will allow the sign to remain, if approved.

To clarify, BAG Real Estate Inc is a wholly owned operating division of the Birchwood Automotive Group which is directly responsible for all properties and building owned or leased.
