Subject: RE: [EXTERNAL]448 Douglas Street Conditional Use

Thanks Bernice,

We found the conditional use extension for 448 Douglas, but there wasn't one in the portal for 2513 McDonald Ave.

The reason for the 448 Douglas extension is because, of the increase in costs due to Covid the project had to be revamped. Additionally the land has been sold and that client wants a different plan than what was originally proposed, as well as time taken for setting up financing to build with us. I hope this is sufficient?

Kind Regards,

Kate McKenzie, C.E.T.

Hi Kate,

Our Permit Clerk helped me navigate on the Conditional Use process extension, we have set it up in your account and it's ready for payment. You can access and pay it through the Online Portal (PLCU2020000018) by using or Portal log-in information or Amanda's, or call 204-729-2110. I apologize if there is some sort of miscommunication, as this is my first time processing an extension for a Land Use application.

I would also be needing the reason for the extension to help me write the Public Hearing Extension Report. And would like to confirm if I can put this on to the July 21st, 2021 (Wednesday) Public Hearing, or you'd like it on a later date? Please advise.

Thanks so much for understanding. Let me know if you require further information.

Best,

Bernice Leyeza
