Letter of Intent

RE: Request for Extension of time for 602 18TH ST

I would like to request a 1-year extension for the Variance Application for 602 18th St. The volatility in the cost of construction material and the extended shut down due to COVID-19 made proceeding during the last year not the best option. We are now finalizing the construction drawings and will be ready for permit application once we complete the updates to the structural drawings.
