Re: Notice of Public Hearing Letter received June 21, 2021 – 759-6<sup>th</sup> Street

**Statement under Objections**

These news were a shock for me because I thought the house next door would be sold. I have lived here about 30 years, paid for it and looked after it and now I can look at a

sharp decrease in the value of my house. And even I would try and sell this house now, who wants to live beside a big house like that.

I went to work all my life and now this is what I worked for, just because someone wants to make money. There should be a law preventing this.

Anyway I was going to finish painting the dividing fence, but what for. It will be removed or re-placed, right. I have the paint here.

I thought when I retired would take it easy, travel and enjoy life. Plans can change in a moment.

Yours truly,

Anni de Cangas
