To whom it may concern:

We are objecting ^{to} the zoning by law to 4501 Patricia Ave. lot.

We moved out here one year ago for our retirement to escape the noise and traffic. We moved out here for the peace and the wildlife. Now that is going to be taken away if this development goes through.

Swamps are there for a reason - to prevent flooding like south of Crelus. With this development the water is going to back up over the road onto our property - worse than it already does. The traffic will be awful - worse than it already is. The wildlife will be gone.

Are you going to protect us when the water backs up and floods our driveway, yard and home?

So much for our peaceful
retirement. Die Werk die
"We move next?"
