

About YAC

The Youth Activity Centres were implemented in our community to provide healthy opportunities to youth during the summer months.

For safety and health reasons, youth who do not fall into the appropriate age categories WILL NOT be able to participate. No exceptions! This is to ensure that youth can participate with other youth in their age range and take full benefit of the activities offered.

Youth Activity Leaders support a safe, non-judgmental, confidential and inclusive environment to promote youth to develop skills in leadership, cooperation, problem solving, positive relationships, responsibility and confidence. All staff are trained in CPR and First Aid and must have completed Criminal Record and Child Abuse Registry Checks.

Everybody here is nice. Not just the Leaders but all of the kids and I get to make some friends. - Michael
